In his memoir, *\_Climber\_*, Mark Synnott takes us on a gripping journey through life and death, as he defies gravity and faces his own mortality in the pursuit of his passion. From his early days as a rock climber, to his ascents of some of the world's most challenging peaks, to his near-death experiences and his ultimate triumph, Synnott's story is one of adventure, resilience, and self-discovery.

Synnott's writing is both lyrical and raw, as he vividly describes the beauty and danger of the mountains, and the profound experiences he has had in their embrace. He writes of the camaraderie and support of his fellow climbers, and of the deep connections he has forged with the natural world. He also shares his innermost thoughts and feelings, as he wrestles with the risks he takes, and the fragility of life.

In *\_Climber\_*, Synnott does not shy away from the dark side of his journey. He writes about the accidents and injuries he has witnessed, and the deaths of friends and mentors. He explores the psychological toll that climbing can take, and the ways in which it has tested his limits. But through it all, Synnott never loses sight of his love for climbing, and his belief in the power of the human spirit.

Ultimately, *\_Climber\_* is a story of hope and redemption. It is a story about the importance of following your dreams, even when they take you to the

edge of your comfort zone. It is a story about the strength of the human spirit, and the power of love and friendship to overcome even the greatest challenges.

If you are looking for a book that will inspire you, motivate you, and make you question your own limits, then I highly recommend Climber. It is a powerful and moving story that will stay with you long after you finish reading it.
