

Data Love Story: A Tale of Data, Love, and Redemption

Amy, the protagonist of Data Love Story, is a talented software engineer who has always been fascinated by the potential of data to improve the world. However, she is also deeply skeptical of the ways in which data is often used to manipulate and control people. When Amy is tasked with leading a project to use data to predict recidivism rates among parolees, she is determined to do it in a way that is fair, equitable, and respectful of people's privacy.
