Jean-Auguste-Dominique Ingres was a master of line, known for his precise and elegant drawings. His portraits and historical scenes are characterized by their clarity of form and attention to detail. Ingres's influence on the Neoclassical movement was significant, and his drawings continue to be admired for their technical virtuosity and timeless beauty.

Eugène Delacroix, "The Death of Sardanapalus," 1827

Eugène Delacroix, on the other hand, was a champion of Romanticism, known for his bold and passionate drawings. Delacroix's works are characterized by their movement and energy, and he often used color to create dramatic effects. His famous drawing "The Death of Sardanapalus"

captures the violence and chaos of the scene, while also conveying the underlying themes of power and decadence.

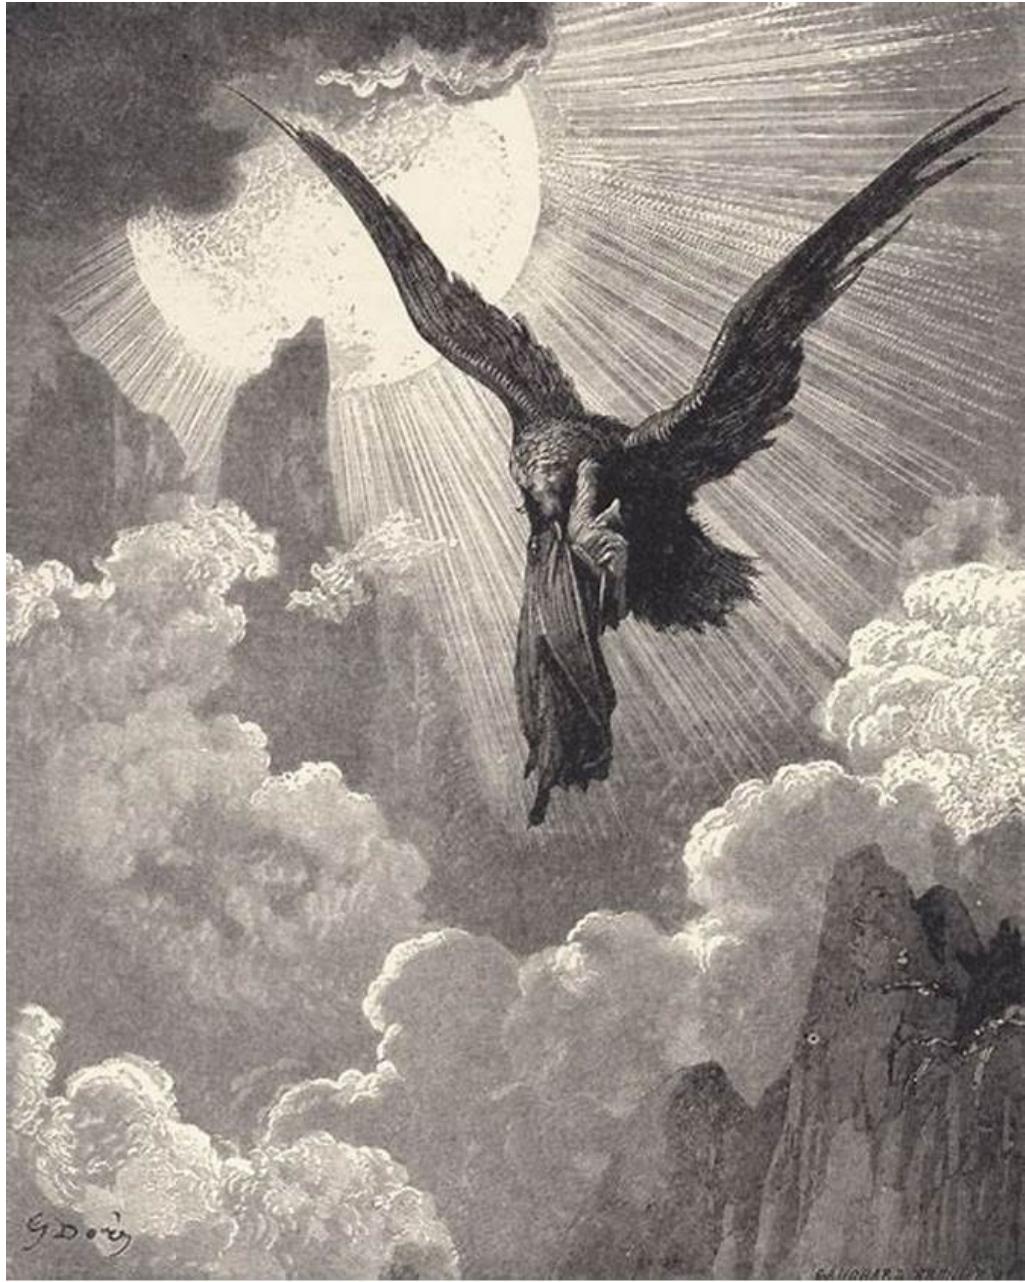

Honoré Daumier was a master of satire, using his drawings and illustrations to criticize the political and social injustices of his time. Daumier's caricatures were often biting and humorous, but they also revealed the artist's keen understanding of human nature. His drawing "Rue

"Transnonain, 15 April 1834" depicts the aftermath of a government massacre of civilians, and serves as a powerful indictment of political violence.

The Rise of Illustration

The 19th century also saw the rise of illustration as a distinct art form. As technology improved and printing became more widespread, illustrated books and magazines became increasingly popular. Artists such as Gustave Doré, John Everett Millais, and George Cruikshank created iconic illustrations that brought literary works to life.

Gustave Doré, "The Divine Comedy," 1861

Gustave Doré was one of the most celebrated illustrators of the 19th century. His intricate and dramatic illustrations for works such as Dante's "The Divine Comedy" and Edgar Allan Poe's "The Raven" are masterpieces of the genre. Doré's illustrations perfectly captured the mood and

atmosphere of the stories they accompanied, and they continue to be widely reproduced and admired today.

John Everett Millais, a member of the Pre-Raphaelite Brotherhood, also created memorable illustrations. His painting "Ophelia," which was inspired by Shakespeare's "Hamlet," is one of the most recognizable and beloved illustrations in Western art. Millais's careful attention to detail and use of

vibrant colors create a haunting and unforgettable image of Ophelia's tragic end.

George Cruikshank, "The Bottle," 1847

George Cruikshank was a master of social satire, using his illustrations to expose the evils of alcohol, gambling, and other vices. Cruikshank's

illustrations were often humorous, but they also had a serious purpose, and they helped to raise awareness about important social issues.
