The authors in this collection come from a variety of backgrounds and experiences, but they all share a deep commitment to healing and social justice. They write about their own experiences of healing, as well as the ways that they have seen healing used as a tool for liberation in their communities.

The essays in *Medicine Stories* are both personal and political. They offer a glimpse into the lives of people who are working to create a more just and equitable world, and they provide a roadmap for how we can all use our own healing journeys to contribute to the struggle for liberation.
