

Models, Traditions, Orientations, and Approaches: Professional and Practice-Based

A Comprehensive Guide to Social Work Theory and Practice

This book is a comprehensive overview of the different models, traditions, orientations, and approaches to professional and practice-based work in the field of social work. It is designed to help students and practitioners understand the various ways of thinking about and practicing social work, and to develop their own unique approach to the profession.

The book is divided into four parts. Part I provides an overview of the history of social work and the different theoretical perspectives that have shaped the profession. Part II examines the different models of social work practice, including the medical model, the psychodynamic model, the cognitive-behavioral model, and the humanistic model. Part III discusses the different orientations to social work practice, including the person-in-environment orientation, the strengths perspective, and the empowerment perspective. Part IV explores the different approaches to social work practice, including casework, group work, community work, and research.
